

# CARRIER SERVICES

**For over 35 years, Parallel Technologies has saved businesses time and money by providing leading edge business communications and infrastructure solutions to companies seeking value and scalability.** Parallel's established agent relationships allow us to serve as the single point of contact for multiple service providers, and provide impartial guidance in your business communications decisions – all while designing a seamless solution that meets your business's unique needs. Our partnerships with best-in-class carriers allow us to offer the most advanced cloud, network, and unified communications solutions, while our skilled sales and service teams streamline implementation. And because we are authorized agents of our carrier partners, there is never a cost to you for our expert support.

- Unified Communications

## NETWORK AUDITS

Recurring monthly expenses are typically the largest communications costs a business will face. Parallel will evaluate every piece of your telecommunications and internet systems and connectivity free of charge, providing a complete needs assessment of your current communications infrastructure. The results of the audit allow us to find the best solution that reduces your cost and provides you with the highest quality of service.

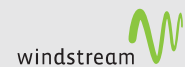

## VENDOR SERVICES COORDINATION AND EXPENSE MANAGEMENT

Through reputable agent relationships, Parallel Technologies serves as your single point of contact for each of your telecom and internet providers. Since we are authorized agents of our carrier partners, there is never a cost to you for our support.

## STRATEGIC PARTNERSHIPS

Our featured partners include Cincinnati Bell, Level 3, Spectrum Business (*formerly* Time Warner Business Class) and Windstream, however we represent all major carriers.

Dublin 614.798.9700 | Cincinnati 513.769.8777 | Dayton 937.222.8777
